

Disaster in a Blink of an eye

One Look Away... Lives Taken Away...

By: Kurt Disarapong

Your phone might be tempting to look at while on the road, especially when you get a notification or somebody is trying to text you. But please save the phone for after the drive, you have all the time in the world to check your phone. One look away from the road and you could crash, and you or someone else could be killed. Always choose safety over your phone. You might think "It's only for a couple of seconds. It won't hurt to look at my phone!", but accidents can happen in the blink of an eye, and they can happen anywhere and any-time while on the road. Hundreds of accidents happen everyday, dont let yourself get in one of those accidents just because of one big mistake. Dont text and drive.

Take the Pledge
It can wait
