

UNITED WITH YOU

Pennsylvania newspapers stand united with healthcare workers and urge readers to take smart steps this holiday season. As we yearn to get together with family and friends, small gatherings are contributing to the rise in COVID-19 cases. This year, please do not travel and limit your gathering to your household.

ONLY YOU CAN STOP THE SPREAD OF COVID-19

Together our actions can help prevent more illness and hospitalization and show support of our dedicated health care workers.

Please help us protect our families, neighbors and communities, by doing your part.
